Acknowledgement

I take this opportunity to convey my sincere gratitude to Mr. Rahul Bhatnagar, IAS, Secretary, Ministry of Youth Affairs & Sports, Govt. of India, Smt. NeelamKapur, IIS, Director General, SAI, Mr.OnkarKedia, Special Director General, SAI for reposing faith in Fencing Association of India and by extending their full cooperation and support for the development of fencing sport. The synergy developed between Fencing Association of India and all the officers & staff of MYAS & SAI for the promotion of Fencing game in India is unparallel and much appreciable with special mention of efforts and guidance given for up- gradation of **Fencing game** to top priority in the sports calendar of SAI.

The recent performance of our fencers at Junior Commonwealth Fencing Championship at Newcastle, England (U.K.) from 23rd to 30th July 2018 and Asian Games at Jakarta, Indonesia 2018 was applauded by all concerned. The performance of Senior Women Fencers is Asian Games 2018 was applaud able and shown that with constant effort from the environment, sport has the potential to reach at top. I would also like to place it on record that the same could have not been possible without the guidance, support and faith reposted by MYAS and SAI in FAI. I am fully convinced that with this kind of guidance and support from MYAS and SAI, my dedicated team of FAI will make fencing sport a force to reckon with in near future.

I am also grateful to MYAS & SAI for their valuable support and efforts for including the Fencing game in U-14, U-17 Boys & Girls in the **"Khelo India"** scheme and guidance to project the Case to upgrade the sport of fencing General category to Priority Category.I also assure you that FAI will fully comply with all rules and regulations of SAI,MYAS, Govt.of India

I would like to further mention here that I will be submitting the FAI Action plan for the year 2019-20 in the ACTC (Annual Calendar for Training Competition) meeting as per earmarked dates of fencing.

My sincerest gratitude to all FAI office bearers, State/UT Presidents & Secretaries for their guidance , unconditional support and contributionto bring all necessary reforms in fencing as per rules and regulations and changing environment of sports. I assure you complete transparency in FAI.

Let us all work with same zeal and enthusiasm as team to take fencing to new heights.

With Best Wishes

Rajeev Mehta

International Body :

Federation Internationale D'Escrime (FIE)

On November 29th, 1913 at a meeting in Paris, the national fencing representatives of France, Italy, Great Britain, Germany, Belgium, Bohemia, Holland, Hungary and Norway met and decided to form the Federation International d'Escrime, which has been the governing body of the sport ever since. Later in 1918, the first F.I.E. rule book was published. At present, there are over 80 countries affiliated with the Federation. The F.I.E. is striving to make fencing more visual and dynamic through the use of transparent masks, wireless scoring devices and electronic scoring boards. The contact details of FIE office is as follows:-

PART-A (FOR SENIOR MEN AND WOMEN)

2.0 Brief Introduction of the Sport:

Origin and Development

Fencing began as a form of combat and is known to have been practiced well before the birth of Christ. Relief carvings in the temple of Madinet-Habu near Luxor, Egypt, dating from approximately 1190 BC depict fencers competing. Many other ancient civilizations, including China, Japan, Persia, Babylonia and Greece, practiced swordplay as training for combat.

As a sport, fencing began in either the 14th or 15th century and both Italy and Germany lay claim to the origins of the sport. Three innovations in the 17th century led to the popularity of fencing as a sport. The first was the development of a light practice weapon with a flattened or "foiled" tip that was also padded to reduce the risk of injury. This weapon was soon called the foil. Second was the development of a set of rules that limited the target to certain areas of the body. The final innovation was the quadrille wire-mesh mask which protected the face and made fencing a safe activity.

The sport has been part of all Olympics since 1896 onwards. The first modern Olympic Games featured foil and sabre fencing for men only. Epee was introduced in 1900. Single stick was featured in the 1904 games. Epee was electrified in the 1936 games, foil in 1956, and sabre in 1988. Early Olympic Games featured events for Masters, and until recently fencing was the only Olympic sport that has included professionals'. Women's foil was first contested in the 1924 Olympic Games, and Women's epee was only contested for the first time in 1996, although it has been part of the World Championships since 1989. Women's sabre made its first appearance in the 1998 World Championships as a demonstration sport.

Fencing is probably one of the oldest sports in existence, for it sprang directly from the duel, and the latter has been extant as long as there has been war. It can be defined as a sport practiced in pairs and employing a weapon (Foil, Sabre or Epee). The objective is to hit the opponent with a thrust in foil and epee or with a cut or thrust in Sabre, in a manner and on a target area specified by the rules of fencing. Fencing can be described as the skilled use of the sword for offence or defense. This sport is also known as **"the chess with muscles".** Fencing of today employees a strange combination of archaic and modern customs, combatants still salute before a match and wear the traditional white uniform and mask, but scoring is now determined by electronic padding worn by the combatants.

In the last decade fencing has undergone numerous revisions to its rules and structure to improve its value as a spectator sport.

Fencing is one of four sports which have been featured at every one of the modern Olympic Games. The sport of fencing is divided into three weapons:

Foil

A light thrusting weapon that targets the torso, including the back and shoulders, but not the arms. Touches are scored only with the tip; hits with the side of the blade do not count, and do not halt the action. Touches that land outside of the target area (off-target) stop the action, and not scored. Only a single hit can be scored by either fencer at one time. If both fencers hit at the same time, the referee uses the rules of right of way to determine which fencer gets the point.

Sabre

A light cutting and thrusting weapon that targets the entire body above the waist, except for the hands. Hits with the edges of the blade as well as the tip are valid. As in foil, touches which land outside of the target area are not scored. However, unlike foil, these off-target touches do not stop the action, and the fencing continues. In the case of both fencers landing a scoring touch, the referee determines which fencer receives the point for the action.

Épée

A heavier thrusting weapon that targets the entire body. All hits must be with the tip and not the sides of the blade. Touches hit by the side of the blade do not halt the action. Unlike foil and sabre, Épée does not use right of way, and allows simultaneous hits by both fencers. However, if the score is tied at the last point and a double touch is scored, nobody is awarded the point.

2.1 Whether Olympic Games (OG) sports or not? If yes, since when introduced?

Yes, it has been part of all Olympic Games since 1896 Athens, Modern Olympic Games. However, the first modern Olympic Games featured foil and sabre fencing for men only. Epee Category and Women events were included subsequently. The father of Modern Olympic Games, **Baron De Coubertin** was himself a fencer.

2.2 Whether Asian Games (AG) sports or not? If yes, since when introduced?

Yes, fencing was introduced in Tehran (Iran) Asian games in 1974. Since then it is regular feature in Asian Games.

2.3 Other level of Championships where sport is played.

The sport is being played at continental level competitions. Following Championships are organized regularly as per program circulated by **"FIE"-** World Championship / Asian / commonwealth / world Cup / Grand Prix / Satellite/ SAF/ World Military Games /World University Games etc. The sport has approximately 150 official and unofficial competitions in a calendar year.

3.0 Outstanding Performance of the Indian Team at international level in the past four years :

FAI has been working on empowerment and growth of fencers as they are being prepared for 2020 and 2024 Olympics Games by keeping long term development goals in mind. The young talent has been identified and groomed at various affiliated units of federation under the able guidance of experts. It is the result of great synergy between affiliated units and FAI that our fencers have started performing at international platforms.

8.0 Sports Equipment (Consumable and portable) required and to be procured for use in preparation of Indian teams/ campers.

- The equipment of fencing needs to be of high quality and of top Brands to train as well as compete. The availability of branded equipment will improve the performance as well as have impact on the psychology and morale of trainees.
- The maximum players and probables and campers are playing currently with **Chinese made equipment** which is of inferior quality.
- The availability of branded equipment in India is scarce as it imported mostly from European countries. There is no local manufacturer in India.
- The consumption of perishable equipments in preparation camps increase due to intense training and bouts. Hence the maximum availability of same with fencers will improve their performance.

11.0 Main target of training and achievement expected.

Fencing is a dynamic sport. The probability of medal increases when continuity in training and competition exposure is supported by external agencies controlling the sport and sportsmen. It is a holistic approach and can be achieved only with overall combination of physical, techno tactical, emotional, financial and environmental support to sportsmen. The aim of the FAI is to win minimum **04 medals in Senior Commonwealth Championship Nov. 2018.**

11.1 Main targets in 4 year cycle (specifically in OG, AG, WG, WC & AC.

To qualify and secure position in Olympic Games in 2020. The Asian championship in 2019 and other continental championship in year 2019 will start the Olympic qualification season for Tokyo Olympics 2020. Fencers around the world will be competing from April 2019 to qualify for Olympic glory at the **2020 Tokyo Olympic Games**. In fencing events, a total of 212 athletes will compete across 10 events only.

11.2 Intermediate targets to be attained in between to achieve the main target/targets.

- To win medals in World / Asian / Commonwealth Championships / Games (Senior/Junior/Cadet).
- To ensure empowerment of Indian Coaches and improve their skills.
- Top fencers like CA Bhavani Devi and Karan Singh to be given maximum exposure so that international ranking improves before Olympics qualification starts. Better ranking fencers have an advantage in a pool of draw in qualifying events.
- To make fencing popular in all parts of country by introducing it in all possible departments and schools and colleges.
- To convince International Federation to open FIE **"Centre of Excellence"** in India.
- Make sport of fencing popular in SAF Countries.

11.3 Proposed methodology for attaining the above results.

FAI has been working with short-term, mid-term and long-term goals concept worked out on Long Term Athlete Development programme. The same will be dwelled upon during ACTC presentation.

11.4 Hurdles that needs to be addressed for the successful implementation of the plan to attain the desired results.

- Up gradation of Fencing from General to High Priority category.
- MOU with friendly foreign countries doing good in fencing for long term exchange programmes.
- Quality High Performances foreign experts.

11.5 Any other matter that is important.

- Procurement of Fencing Equipment.
- 75 percent of sanctioned grants to be given in advance for organising Championships and foreigr training and competitions.

PART- B (FOR JUNIOR/SUB-JUNIOR/CADET/YOUTH CATEGORIES)

11.0 Brief Introduction of the Sport:

The Junior and Sub Junior Fencers of FAI have been bringing laurels to Country at Asian and Commonwealth levels. They did have medal less performances at World Championship levels which has been noticed. These category fencers are part of FAI's long term development schedule for 2024 and 2028 Olympics. The parallel growth of these fencers is very important so that they can constantly challenge the berth for Indian Senior team. FAI has been concentrating specially on these fencers and all our Junior and cadet competitions are being taken very seriously at all possible levels.

11.1 Whether played in Youth Olympic Games (YOG) sports or not? If yes, since when introduced?

Yes, it is very much part of Youth Olympic Games, since the first Youth Olympic Games

11.2 Whether played in Youth Asian Games (YAG), Youth Commonwealth Games (YCWG)/Championships (YCWC) or not? If yes, since when introduced?

Yes, fencing is part of Youth Asian Games since first Youth Asian Games Singapore 2009. Youth (Cadet) Asian & commonwealth Championships are organized regularly. Youth (Cadet) Championship is organized every year where as youth (Cadet) Commonwealth Championship is being organized once in four years.

11.3 Other level of Championships where sport is played.

Junior & Cadet Championships are being organized regularly as per program circulated by **"FIE"-** Junior World Championship / Asian / commonwealth / World Cup / Grand Prix / Satellite etc. It is pertinent to mention that our fencers are really making their presence felt in these competitions. All they require is exposure to advanced fencers of Europe and Asian countries for longer duration

11.4 Total no. of events at stake in Men and Women category in Youth Olympic Games (YOG), Youth Asian Games (YAG)/Championships (YAC) and Youth Commonwealth games (YCWG)/Championship (YCWC).

(a) All 12 Events Are Being Organized In Youth Olympic Games (YOG), Youth Asian Games (YAG) / Championships (YAC) And Youth Commonwealth Games (YCWG) / Championship (YCWC).
